

# Fun ideas to make yourself

Post from Santa Claus

## From Marabu you will need...

- Brilliant Painter in silver (082), gold (084)
- Glitter Liner in glitter-gold (584), glitter-silver (582)
- Acrylic-Effects in gold (084), silver (082)
- Fix-it adhesive spray
- Stencils: "Skating Santas", "Rocking Horses", "Fun Angels"
- DecorGlitter in silver (581)

## ...you will also need:

- Blank greeting cards

## Here's how it's done:

1. Before use, shake the painter well with the cap closed. Press onto the tip repeatedly until the ink is visible in it. Try using the painter on a piece of scrap paper first, not directly on the card.
2. Spray a thin coat of Fix-it adhesive spray on the reverse side of the stencil you like, allow to dry and place on the card.
3. Trace the inner outlines of the stencil using a Brilliant Painter of your choice. Ensure you do not press the painter tip on the edge of the stencil. This prevents excess paint from getting under the stencil.
4. Remove stencil and decorate the motif using Glitter Liners or Acrylic-Effects. Apply dots, accentuate lines with glitter, paint areas, etc., just as you like. DecorGlitter can be added directly into wet paint to intensify the glitter effect.
5. Allow the card to dry flat.
