

Give your window colourful highlights!

... the new GlasTattoo paint from Marabu!

Introducing a new, special colour system for uniquely decorating glass surfaces with the new GlasTattoo and Stencils by Marabu

When the mood takes you to create a new window decoration, or you need to obscure a window for privacy, or to add to an overall design theme in a particular room, GlasTattoo is the perfect partner. GlasTattoo from Marabu is a colour collection totalling 14 well co-ordinated and up to date shades. All are simple to use with Marabu-Stencils, without dripping or paint runs to ruin the pattern of the stencil. Original decorations on windows or any other glass surface can be achieved effortlessly.

The seven transparent colours allow light to shine through extremely well, the six satin colours provide subtle privacy. A special glossy motif can be obtained using the sparkling glitter-opal shade. "There are more and more window areas in our homes, and more and more glass used in the furniture sector. Women in particular are keen to decorate and personalise these areas following the latest trends. The GlasTattoo paint was developed for these women," explains Uwe Braun, Director of Creative Colours, adding: "And when they are fed up with one pattern, they can re-decorate with a new one simply and easily."

GlasTattoo is used with a spatula, roller or stencilling brush - depending on the desired effect. The Marabu-Stencil Range with more than 120 motifs offers ideas for choosing the motif. If you don't like the motif anymore, it can be removed easily.

The colour system is available from 1st October 2010 in Creative retail shops, in chemist's shops and in other consumer outlets.

Wherever Marabu branding appears, „Made in Germany“ will feature alongside it too!

Marabu is one of the market-leading manufacturers for Creative Colours in Europe and a company with a long tradition. For 150 years, Marabu has stood for colour and creativity.

The main focus of the range is Creative Colours for nursery, schools, hobby and professional use. Marabu always backs up the latest trends with products answering the very highest demands.

People recognise the Marabu brand worldwide, not only when seeing the red dot above the black „M“, but they also associate it with "quality - made in Germany" at the same time. Marabu colours guarantee safety, lasting enjoyment and successful painting results.
